PUBLICATIONS:

Single Authored Books

- 2020 *The Likeness: Semblance and Self in Slovene Society*. University of California Press.

A close examination of practices of, and idea about, the right location of self-expression *The Likeness* takes a playful, if pointed, approach to contemporary Slovene society, including analyses of Slovene philosophy, contemporary art (and artists), grammatical categories of number and even America's first lady.

- 2016 *The Grid: The Fraying Wires Between America and Our Energy Future*. New York: Bloomsbury. Written for the general public *The Grid* brings anthropological sensibilities to a study of the immense infrastructural, historical, technological, legislative, and fiscal complexity of the US electric grid. The grid is currently being reworked and reimagined to incorporate renewable forms of generation (wind, solar) it has rarely been more fragile or more ripe for the creative possibilities attendant to repair.

Selected by Bill Gates as one of the [five best books of 2016](#)

Edited Volumes

- 2017 Bakke, G. and M. Peterson eds. *Between Matter and Method: Encounters in Anthropology and Art*. London: Bloomsbury. A companion volume to the reader (below), this collaboratively-produced compendium of new work engages with visual artifacts, sound, performance, improvisation, literature, dance, ethics, and design. Included are essays by Kathleen Stewart, Keith Murphy, Natasha Myers, Joe Dumit, Stuart McLean, and Craig Campbell among others.
- 2016 Bakke, G. and M. Peterson eds. *Anthropology of the Arts: A Reader*. London: Bloomsbury.

This course text incorporates classic and newer works by anthropologists on the arts (sound, performance, dance, media and visual arts) to bring the social contexts of arts production reception, and circulation to bear upon how students understand and approach the arts.
